

**Postsecondary Child Care Grant Program
Income Verification for Child Care Grant Eligibility**

Student Name:		School ID #:

Why We're Asking for This Information

We are requesting income verification to help us better understand how you are covering your child care costs. The FAFSA information we currently have on file does not clearly show the income or support needed to cover the child care expenses you reported. Because the Postsecondary Child Care Grant is intended to help offset *existing* child care costs and funding is limited, we must confirm that students are already paying for care and can meet their ongoing expenses. Providing the information below will help us process your application accurately and determine your eligibility.

Student's Estimated Monthly Expenses (For Student and Child)

If someone helps you with any expenses, list their name and relationship to you under "How You Pay for This Expense." This information helps us confirm that you are responsible for your child care costs and have the income or support needed to pay them.
